## ***G4 FEMALE FIT SIZE GUIDE***

CRYE PRECISION™

**Our *G4 Female Fit* uniforms feature the same innovative details and fabrics as the G4 uniform with a design that is built specifically for women. Based on extensive end user feedback and fit evaluations, we've optimized our uniforms to increase comfort, mobility, and functionality for our female customers.**

### **Pants**

The *G4 Female Fit Combat* and *G4 Female Fit Field Pant* feature hip shaping, reduced front and back rise, optimized kneepad placement and shortened inseam with a more tailored fit throughout. The fabric is constructed from a two way stretch ripstop woven, so there is plenty of mobility and comfort for movement. Due to the nature of our fabrics, the pants are patterned to allow for shrinkage. We recommend washing the garment one time for correct fit. The length of the leg and waist circumference will shrink to size.

### **Tops**

The *G4 Female Fit Combat* and *G4 Female Fit Field Shirt* feature chest and waist shaping, slimmer sleeve circumference, optimized elbow pad and chest pocket placement and a shortened body length. Due to the nature of our fabrics, the tops are patterned to allow for shrinkage. We recommend washing the garment one time for correct fit. The length of the sleeves and body and chest circumference will shrink to size.

*The Female Fit Combat Shirt* is constructed from a two way stretch ripstop in the sleeves, and the torso features a stretch knit jersey that should fit snugly, similar to a baselayer tee.

*The Female Fit Field Shirt* is constructed from a two way stretch ripstop woven fabric, so there is plenty of mobility and comfort for movement. *The G4 Female Fit Field Shirt* has a roomier fit than the *G4 Female Fit Combat Shirt*.

### **Sizing**

Our size charts below provide guidance to assist you with ordering the right size. We've included how-to information for taking measurements. If you previously purchased our *G3* or *G4* product, we've also included the *G4 Female Fit* equivalents. Our numeric size equivalents are based on female commercial sizing for apparel purchased from retailers.

Personal preference plays a big part in selecting the right size. For example, if your measurements are on the lower end of the size range and you prefer a tighter fit, we recommend sizing down. If your measurements are on the higher end of the size range and you prefer a regular fit, we recommend sizing up.

## HOW TO MEASURE

*Chest Measurement*

**CHEST**  
Measure *around*  
the fullest part  
of the chest.

**WAIST**  
Measure *around* waist  
at the narrowest point,  
usually right above  
the belly button.

**HIPS/SEAT**  
Measure *around*  
the fullest part  
of your hips.

**THIGH**  
Measure *around*  
the fullest part  
of your thigh.

**INSEAM**  
Measure from the  
top of your inner  
thigh to the bottom  
of your heel.

*Waist Measurement*

*Hip/Seat Measurement*

*Thigh Measurement*

*Inseam Measurement*
